EDUCATION

B.A. Psychology

May 2018

Rutgers University — New Brunswick, NJ

Major: Psychology

Minor: Critical Sexualities Studies

Honors Thesis: *“He” can take it: Masculinity bias and perceptions of violence towards transgender women*

Thesis supervisor: *Dr. Shana Cole*

AWARDS, HONORS, FELLOWSHIPS, AND SCHOLARSHIPS

Tennessee Fellowship for Graduate Excellence	2021
Rutgers Research Council Grant (\$2,500)	2019
Henry Rutgers Scholar Award (\$1,000)	2018
Aresty Conference Funding Research Grant	2018
Douglass Residential College Continuing Student Scholarship	2017 – 2018
Frances B. and Paige D. L'Hommedieu Scholarship	2016 – 2018
Dean's List, all semesters	2014 – 2017
Highest Academic Achievement in Psychology Award	2016
Middlesex County College Foundation Scholarship	2015 – 2016

RESEARCH EXPERIENCE

Research Study Coordinator/Lab Manager

Addiction & Decision Neuroscience Lab Dr. Anna B. Konova Rutgers-UBHC
September 2018 – July 2021

- Conducted an independent project to assess whether optimistic thinking relates to tolerance of unknown risks in health decision making on mTurk.
- Wrote a literature review, designed the methodology, analyzed the results, and wrote a manuscript to be published for an independent project.
- Coordinated study sessions with participants and Research Assistants across four different sites.
- Ran study procedures with opioid users and healthy controls in behavioral and fMRI sessions.
- Contributed to the development and analyses of projects.
- Managed the lab budget and work with the finance department to make purchases, reimbursements, and budget reports.
- Assisted in writing and submitting grants.
- Wrote, submitted, and modified IRB protocols.

- Hired, interviewed, and on-boarded new Research Assistants and then trained them in lab procedures.
- Assisted Research Assistants in poster presentations and honors theses.

Lab Manager

Emotion and Psychopathology Lab

Dr. Edward A. Selby

Rutgers University

May 2017 – August 2018

- Worked on a project assessing the impacts of minority stress and social support on non-suicidal self-injury in LGBTQ adults.
- Conducted clinical interviews with self-injurious LGBTQ participants about stress, self-injury, and suicidal ideation.
- Coordinated Research Assistants' and graduate students' schedules, handled scheduling of all lab study visits, and supervised work of Research Assistants.
- Ensured study materials (including participant monetary compensation) were prepared for all study visits.
- Interviewed, hired, and trained new Research Assistants in order to create a dynamic team.
- Consulted with graduate students and PI in order to complete suicide risk assessments for LGBTQ participants.
- Maintained lab databases by entering, coding, and cleaning data in an organized manner.

Research Assistant

Regulated Action and Motivated Perception Lab

Dr. Shana L. Cole

Rutgers University

May 2017 – August 2018

- Conducted an independent honors thesis to understand if perceptual masculinity biases lead to greater tolerance of aggression towards transgender women.
- Wrote a literature review, selected stimuli for the methodology, analyzed the results, and wrote an honors thesis.
- Coded qualitative participant response data for research projects.
- Ran subjects through technical experimental procedures using an eye-tracker, face-morphing software, and an avatar generation task.
- Participated in lab meetings, providing and receiving critiques on research design.
- Created study scripts for fellow Research Assistant to follow when running participants.
- Conducted literature reviews in order to create and develop research projects.
- Recruited participants through giving short talks in psychology courses and canvassing on campus.

Research Assistant

Social Cognition Lab

Dr. Laurie A. Rudman

Rutgers University

January 2017 – May 2018

- Worked on a project assessing gender bias and discrimination in job hiring and implicit dehumanization of racial minorities using the Implicit Association Test.
- Administered and explained research study materials to participants in the lab.
- Provided professional, ethical, and confidential treatment to participants.
- Designed and created research paradigms for Lab Manager's doctoral projects.

- Attended bi-weekly meetings with Lab Managers and associates to discuss research progress and design.
- Attended social psychology colloquia to learn about current research in the field.
- Recruited participants through communicating to various LGBTQ+ groups on campus.

RELEVANT EXPERIENCE

Volunteer Coordinator/Youth Adult Advisor

The Pride Center of New Jersey

Highland Park, NJ

July 2019 – Current

- Answering emails and phone calls to connect the central NJ LGBTQ+ community with health and social resources at their request.
- Maintaining a positive and clean environment at the center for the members and group attendees.
- Supervising other front desk hosts and disseminating information to them.
- Facilitating the LGBTQ+ inmate letter writing program within the center.
- Attending bi-monthly Youth Drop-In events to provide advisement, compassion, and entertainment for LGBTQ+ youth ages 7-17.
- Helping set up, maintain, and clean up any events that the center hosts.

Mental Health Technician

Carrier Clinic

Belle Mead, NJ

May-September 2015

- Provided one-to-one support for patients with compassion.
- Facilitated general adult psychiatry groups with patients in order to foster a support system.
- Recorded patients' vitals to secure their health and safety on the unit.
- Maintained comfort on the unit by enforcing policies that ensured everyone's safety.
- Collaborated with nurses to ensure that the needs of all patients were met effectively.
